'YOU GET THE BEST OF BOTH WORLDS - THE PEACE OF MIND OF A SIT-ON-TOP KAYAK WITH THE SPEED AND EFFICIENCY OF A SEA KAYAK'

MISSION // BEACH

Typically sit-on-top kayaks are great for recreational and novice paddlers because they are less restrictive and shorter as well as wider, making them more stable and easier to use. Traditional sea or touring kayaks are more suited to intermediate and experienced paddlers because they are fast, efficient, and manoeuvrable due to their sleeker and longer design. The Xstream 420 is suitable for paddlers of all skill levels and combines the speed and efficiency of a sea kayak with the stability and ease of use of a sit-on-top kayak.
